

Gautam Velpula

Enterprise Architecture Executive | Managing Director

C-Suite Advisory • Architecture Governance & Standards • Multi-Cloud Modernization •
Transformation Portfolio Delivery

Atlanta, GA | gautamvelpula@gmail.com | linkedin.com/in/gautamvelpula | 678-539-0154

Executive Summary

Enterprise Architecture executive with 18+ years spanning top-tier management consulting and hands-on enterprise leadership, advising Fortune 500 CIOs, CTOs, and business executives on target operating models and target-state architectures. Proven track record establishing enterprise architecture governance, standards, and reference frameworks across multi-cloud, distributed systems, and modern API/integration landscapes; leading multi-million-dollar transformation portfolios; and translating legacy complexity into executable, prioritized modernization roadmaps. Combines board-level strategic advisory, practice growth and delivery leadership, and deep architectural depth across software engineering, integration, and infrastructure to turn corporate strategy — including mergers, acquisitions, and expansions — into scalable business capability models and measurable outcomes.

Core Competencies

Board & C-Suite Advisory • Enterprise Architecture Governance & Standards • Target Operating Models & Target-State Architecture • Business Capability Modeling (M&A, Expansion) • Multi-Cloud (AWS, GCP, Azure) • Distributed Systems & API / Integration • Application Modernization • Transformation Portfolio Management • Practice Growth & Delivery Leadership • Pre-Sales, Scoping & Solutioning • GenAI & Agentic AI Strategy • Executive Stakeholder Management • Team Building & Mentorship

Professional Experience

GoTo Foods LLC

2021 – Present

Sr Director, Enterprise Architecture

- Serve as the single Enterprise Architecture authority for a global, multi-brand enterprise spanning digital, commerce, marketing, payments, and data, partnering directly with executive leadership to align technology strategy with business priorities.
- Established enterprise architecture frameworks, standards, and governance across business, application, data, and technology/infrastructure domains, and translate business capabilities into scalable architecture blueprints and roadmaps.
- Built an enterprise technology roadmap addressing lifecycle management, cost efficiency, and portfolio consolidation, retiring redundant systems and unifying 7 independent brand apps and websites onto a shared digital platform.
- Re-architected backend systems to a cloud-native, API-first, microservices, event-driven architecture across a multi-cloud footprint, standardizing service contracts and integration/middleware patterns.
- Lead the **GoTo Foods AI Working Group**, the enterprise governing body reviewing and approving all AI initiatives, and drive adoption of **GenAI and Agentic AI** with defined patterns, guardrails, and governance for safe, scalable enterprise use.
- Direct vendor and SaaS technology selection and governance, ensuring architectural consistency across third-party and SaaS platforms.
- Reduced time-to-market by approximately 40% and improved system uptime by approximately 30% through architectural standardization and platform consolidation.

- Coach and mentor architects, product owners, and business stakeholders to instill architectural thinking and a shared technology vision.

Slalom Consulting

2018 – 2021

Senior Delivery Principal

- Senior delivery and advisory executive for a leading management consulting firm, owning multi-million-dollar digital transformation, cloud modernization, and payments portfolios for Fortune 500 and large-scale eCommerce clients.
- Served as primary executive-facing advisor to client CIOs, CTOs, and business leaders, defining target operating models and target-state architectures and translating business strategy into actionable roadmaps, business cases, and TCO models.
- Conducted a multi-year Enterprise Architecture assessment of a legacy payments platform for one of the largest eCommerce companies in the U.S., breaking down legacy complexity into a prioritized, executable modernization roadmap and reusable platform capabilities.
- Led a major multi-cloud migration from on-premises and **AWS to GCP** for a leading point-of-sale provider, modernizing infrastructure, data, and application tiers across distributed systems.
- Designed and delivered payment processing systems for a large financial services organization, addressing resilience, high-volume transaction processing, and regulatory requirements.
- Oversaw high-stakes, cross-functional delivery teams spanning engineering, architecture, product, and design across concurrent multi-year engagements.
- Partnered with sales and pre-sales to scope, estimate, and win high-value engagements, directly driving practice growth; achieved approximately 95% client satisfaction and consistent repeat business.
- Implemented Agile and DevOps operating models across client teams, increasing deployment frequency by approximately 30% and reducing lead time by approximately 25%.
- Mentored delivery principals and architects, strengthening leadership depth, architectural thinking, and delivery maturity across the practice.

Jacada (acquired by Uniphore)
Director, Professional Services

2014 – 2018

- Owned global professional services delivery for enterprise customers, leading large-scale implementations and integrations for Fortune 500 clients with end-to-end accountability across pre-sales, solution architecture, delivery, and post-implementation optimization.
- Advised C-level stakeholders, aligning delivery with business outcomes, driving organizational change, and managing executive relationships.
- Served as senior-most technical leader within services, providing architectural guidance, escalation support, and technology evangelism for emerging capabilities.
- Supported sales through POCs, demos, and solution design, and partnered with product management to influence product roadmap based on enterprise client needs.
- Built and scaled a global professional services organization through recruiting, training, and standardized delivery practices, growing delivery capacity and margin.

Frameworks, Technology & Methodology

EA Governance & Standards: Architecture Review Boards, Reference Architectures & Standards, Application Portfolio Management, Business Capability Modeling, Target Operating Models

Cloud & Platform: AWS, Google Cloud Platform (GCP), Microsoft Azure (AKS, Front Door, API Management, Functions, Blob Storage), Vercel, Cloudflare

Architecture & Integration: API-First, Microservices, Event-Driven & Distributed Systems, REST / GraphQL APIs, API Gateways, Middleware & Systems Integration, SOA, SaaS / IaaS / PaaS

Data & Analytics: Data Platforms & Governance, Cosmos DB (MongoDB & PostgreSQL APIs), Databricks, Event Hub, Service Bus

AI / ML: GenAI, Agentic AI, LLM application patterns, AI governance & guardrails

Languages & Frameworks: TypeScript, Node.js, Java (Spring Boot), NestJS, Next.js, React Native, Tailwind CSS

Methodologies: SAFe Agile, Scrum, DevSecOps, Platform Engineering, Pre-Sales & Solutioning, Transformation Portfolio Delivery

Education

Master of Science in Information Technology

2007 – 2009

George Mason University, Fairfax, VA

Bachelor of Technology in Computer Science

2002 – 2006

Osmania University, Hyderabad, India
